### **School Library Journal**

K-Gr 3-A collection of whimsical poems of varying lengths, subjects, and moods, illustrated with Lewin's bold, amusing, slapdash watercolors. Topics include fairies, monsters, and elves; plays on words and other absurdities; and reverse and surprise happenings in everyday situations. At times, the rhythms and rhyme falter, but the language is bright and vivid and the ideas generally clever. The verses read aloud well and are entertaining.-Patricia Pearl Dole, formerly at First Presbyterian School, Martinsville, VA
